ACKNOWLEDGEMENT

I would like to extend my heartfelt thanks to Mrs. Vinita John for teaching me the concepts of Python and SQL and greatly assisting me and my group in completing this project. Her input and guidance has shaped my understanding of the subject.

I would like to express my sincere appreciation to my dedicated group mates for their collaboration and teamwork. Your commitment, creativity, and strong teamwork have not only made our projects successful but also made the journey enjoyable and enriching.

To my parents, I am immensely grateful for your unwavering belief in my abilities and constant encouragement. Your presence has been a constant source of motivation and inspiration. Furthermore, I would like to express my sincere thanks to the school for providing me with an exceptional learning environment and resources that have nurtured my passion for computer science.

Thank you to all for your valuable contributions.

INTRODUCTION TO THE PROJECT

1. Synopsis:

Law firms deal with a vast amount of documents, contracts, case files, and research materials, and to tackle these difficulties, we need efficient data management systems to help organize and categorize this information, making it easier to retrieve when needed. This saves time and minimizes the risk of lost or misplaced documents. It ensures that attorneys and the managing partner can access relevant information quickly and easily when working on client matters. With the right kind of technological developments, "Justice League Law Firm " is able to simplify such actions with great efficiency.

2. Justice League Law Firm: What Features It Offers-

Upon running the program, the welcome page appears, and the user is asked to login with their credentials as allotted or register as a new client/lawyer. After they sign in, their respective menus appear as follows:

3. User:

- The user is allowed to view information about the lawyers
- The users can choose the lawyer of their choice and file a case
- The user is asked the estimated amount of time they require and the users are provided with an estimated amount of fees that they will have to pay
- The user can view their pending requests and approved requests after which they can proceed with payment
- There are two types of payment methods - full payment and monthly installment method
- The client can also read and explore more about the law firm
- Each client has a unique username and password

4. Managing Partner:

- They will be able to view the client details
- To view the new lawyer profiles
- Will be able to track the monthly revenue
- And make changes to the case file, either by updating or deleting it.

5. Lawyer:

- Lawyers will be able either view requests or check and view their client information.
- a) View Requests-Lawyers will be able to view new cases from clients (which is stored in request.dat) and can decide whether to approve them or not; approved cases will be added to casefiles.csv.
- b) View Client Information-Lawyers can view their clients and their data in the form of a table. Data is retrieved from casefiles.csv.

6. New Register:

- The new user is asked whether they want to register as a new user or a new lawyer:
- a. New User

The new user is asked to input the full name and password twice to confirm the newly entered password.

b. New lawyer (SQL)

- This option is for those applying to be a lawyer in this firm.
- Database Name: LAWFIRM
- Table Name: NEWLAWYER
- It provides functionalities for adding new lawyer entries, updating existing information, deleting entries, and displaying the database's content.
- **Main Menu:**
- New Entry: Create a new lawyer's entry.
- Update Entry: Update given entry
- Delete Entry: Delete a lawyer's entry from database
- Exit: Terminate the program.
- **New Entry:**
- Behaves as an application form for a new lawyer to apply.
- Lawyers should enter Name, Age, CV link, Area of Speciality and Years of Experience.
- **Update Entry:**
- Lawyers can update their previous entry.
- They can update a specific field or all of them.
- **Delete Entry:**
- Allows the lawyer to delete their record from the database.

MODULES IMPORTED & THEIR PURPOSES

1. import csv

Purpose- CSV(comma-separated-values) which is used to store tabular data or spreadsheet file format, which uses comma as delimiter or separator, and such files are known as CSV files. CSV files have been used in the program to store information of the cases, lawyers and usernames.

2. import getpass

Purpose - Getpass module prompts the user to enter the password without echoing it on the screen.

3. import tabulate

Purpose – It is used to arrange data in a tabular, systematic, or condensed form in a tabular format.

4. import pickle

Purpose - The pickle module is used to handle binary files, to store data regarding requests for lawyers.

5. import matplotlib.pyplot

Purpose - Matplotlib is a comprehensive library for creating static, animated, and interactive visualizations in Python.

6. import random

Purpose - The Python import random module in Python defines a series of functions for generating or manipulating random integers.

7. import webbrowser:

Purpose - It is a standard library module that provides a convenient way to open web browsers and display web pages from within a Python program.

8. import os

Purpose – OS module allows to delete files and rename files within the Python Program

9. import mysql.connector

Purpose – Allows Python to access the MySQL databases

FUNCTIONS

```
def intro(): #purpose = to print the introductory paragraph from intro.txt
    f = open("intro.txt", 'r')
    print(f.read())
    f.close()
```

```
def money(var): #purpose = to get the salary of the lawyer
    f=open('LawyerProfile.csv')
    r=csv.reader(f)
    for i in r:
        if str(var) in i:
            s=i[5]
            f.close()
            return s
```

```
def name(x): #purpose = to print full name of lawyer #x is the lawyer id
    f=open('LawyerProfile.csv')
    r=csv.reader(f)
    for i in r:
        if x in i:
            ln=i[1]+' '+i[2]
            f.close()
            return ln
```

```
def ct(x): #purpose = to get the type of law the lawyer works for
    f=open('LawyerProfile.csv')
    r=csv.reader(f)
    for i in r:
        if i[0]==str(x):
            c=i[4]
            f.close()
            return c
    f.close()
```

```
def change(l,name): #l=lid name=name of client
    #purpose = to change status of case and payment in casefiles.csv
    f=open('casefiles.csv','r')
    f1=open('kcasefiles.csv','w',newline='')
    r=csv.reader(f)
    w=csv.writer(f1)
    for x in r:
        if (str(l) in x) and ((x[6]=='ND') or (x[4]=='O')) and ((x[2] in name) or (name in x[2])):
            k=[x[0],x[1],x[2],x[3], 'C',x[5], 'D',x[7],x[8]]
            w.writerow(k)
        else:
            w.writerow(x)
    f.close()
    f1.close()
    os.remove('casefiles.csv')
    os.rename('kcasefiles.csv', 'casefiles.csv')
```

```

def remove(l): #l=lid #purpose = to remove an approved case from request.dat
    f=open('request.dat','rb')
    f1=open('krequest.dat','wb')
    while True:
        try:
            x=pickle.load(f)
            if l in x:
                pass
            else:
                pickle.dump(x,f1)
        except EOFError:
            break
    f.close()
    f1.close()
    os.remove('request.dat')
    os.rename('krequest.dat','request.dat')

```

```

def type(t): #purpose = to tabulate information of all lawyers associated with same law
    if t==1:
        spec='Immigration Law'
    elif t==2:
        spec='Criminal Law'

FILES USED

Intro.txt - A text file to introduce users to the program and our firm

Welcome to Justice League Law Firm!
Our team of legal professionals is dedicated to fighting for justice and defending the rights of our clients. Just like the legendary superheroes of the Justice League, we believe in the power of justice and the importance of using our skills and abilities to make a positive impact on the world.

So whether you need representation in court, advice on a legal contract, or guidance through a difficult legal situation, Justice League Law Firm is here to support you every step of the way. Thank you for considering us as your legal partners, and we look forward to working with you to achieve justice and defend your rights.

LawyerProfile.csv - All the data regarding lawyers, their lawyer code, area of speciality etc.

About Justice League Law Firm

Formed in 1999 by Naira Hussain, the late founder of The Justice League Law Firm, this firm still stands tall to this day providing justice to all people regardless of caste, creed, race, religion, language, etc. We, at Justice League Law Firm, pledge to try our best to provide the best services to our clients to the best of our abilities. May the world live in peace and justice!

Business Law

Our team of experienced business attorneys specializes in:

Business Formation: We assist in the formation of various business entities, including corporations, LLCs, partnerships, and sole proprietorships, ensuring compliance with legal requirements and optimizing tax structures.

Contract Drafting and Review: Our experts craft, review, and negotiate contracts to protect your business interests, including partnership agreements, vendor contracts, and employment agreements.

Intellectual Property: We safeguard your intellectual property rights through trademark, copyright, and patent registration, as well as enforcement against infringement.

Mergers and Acquisitions: Our firm provides strategic guidance and legal support for mergers, acquisitions, and business sales, maximizing value and minimizing risks.

Corporate Governance: We assist in establishing and maintaining proper corporate governance practices, ensuring compliance with regulations and protecting shareholders' rights.

Real Estate Law

Our team of seasoned real estate attorneys specializes in:

Real Estate Transactions: We handle a wide range of real estate transactions, ensuring that your buying, selling, or leasing process is smooth and legally sound.

Property Disputes: In the event of property disputes or boundary issues, our experts work to protect your rights and resolve conflicts effectively.

Zoning and Land Use: We navigate complex zoning regulations and land use matters, helping you secure the necessary permits and approvals.

Title Searches and Insurance: Our team conducts thorough title searches and provides insurance to safeguard your real estate investments.

Commercial Real Estate: We offer comprehensive support for commercial real estate ventures, from negotiations to contract drafting.

Criminal Law

Our dedicated team of criminal defense attorneys specializes in:

Criminal Defense: We provide aggressive and strategic defense in a wide range of criminal cases, safeguarding your rights and ensuring a fair trial.

DUI and Traffic Offenses: Count on us for strong defense against DUI charges and traffic violations, working to protect your driving privileges.

Drug Offenses: We have a proven track record in handling drug-related charges, including possession, trafficking, and distribution cases.

Assault and Battery: Our attorneys are experienced in defending clients facing assault and battery charges, advocating for your innocence or reduced penalties.

Theft and Property Crimes: We'll fight vigorously to protect your rights and reputation when facing theft, burglary, or property crime allegations.

Immigration Law

Our team of dedicated immigration attorneys specializes in:

Visa Applications: We assist individuals and businesses in securing various visas, including work visas, student visas, and family-sponsored visas, ensuring compliance with immigration regulations.

PR Applications: Our experts guide you through the process of obtaining lawful permanent residency (PR) through family, employment, or other eligible categories.

Citizenship and Naturalization: We help eligible permanent residents become citizens through the naturalization process, ensuring a smooth transition to full citizenship.

Deportation Defense: Our firm offers strong defense against deportation and removal proceedings, protecting your rights and fighting for your right to stay in the country.

Asylum and Refugee Status: We assist individuals seeking asylum and refugee status due to persecution or fear of persecution in their home countries, advocating for protection in the country.

Family Law

Our seasoned and dedicated team of experienced family law attorneys specialize in:

Our seasoned and dedicated team of experienced family law attorneys specialize in:

Divorce & Marriage: We handle marriage licenses, prenuptial agreements, and divorce proceedings with your best interests in mind.

Child Custody & Support: We ensure fair custody arrangements and child support, prioritizing your child's well-being.

Adoption: Trust us to guide you through the adoption process, safeguarding the rights of both adoptive parents and children.

Prenuptial Agreements: Secure your financial future with expertly drafted prenuptial agreements.

Tax Law

Our team of seasoned tax attorneys specializes in:

Tax Planning and Compliance: We provide strategic tax planning services to minimize your tax liability and ensure full compliance with ever-changing tax laws.

Tax Return Preparation: Our experts prepare accurate and timely tax returns for individuals, businesses, and estates, maximizing your deductions and credits.

IRS Audits and Appeals: When facing an IRS audit or dispute, our attorneys offer strong representation and negotiation to protect your rights and interests.

Tax Disputes and Litigation: In cases of complex tax disputes, we provide robust legal defense and litigation support to resolve matters in your favor.

Estate and Gift Tax Planning: We assist in crafting effective estate and gift tax strategies to preserve and transfer wealth efficiently to your beneficiaries.

Bankruptcy Law

Our experienced bankruptcy attorneys specialize in:

Creditor Representation: Our firm also represents creditors, ensuring their rights and claims are protected in bankruptcy proceedings.

Foreclosure Defense: We offer foreclosure defense services to homeowners facing the threat of losing their homes, working to find solutions to save your property.

Debt Discharge: Our attorneys work diligently to help you achieve a fresh financial start by securing the discharge of eligible debts.

Bankruptcy Litigation: In cases of bankruptcy-related disputes, we provide strong litigation support to protect your interests.

Automatic Stay: We explain and enforce the automatic stay, which halts creditor actions, including lawsuits, garnishments, and repossessions.

Credit Counseling: We connect clients with reputable credit counseling agencies to provide financial education and support during and after bankruptcy.
